Innovation and Climate Adaptation in San Francisco Bay

**Bringing Together Research, Large-Scale Investment,
Community Resilience Policy, and Public Education**

Wednesday, September 12, 2018 • 6:00–8:30 p.m.

**Free, RSVP required. Email reserve@exploratorium.edu,
or call 415.528.4444, and choose option 5.**

An interdisciplinary panel of Bay Area experts will share approaches to climate change adaptation and engagement that are helping to create a better future for the Bay and its communities. Topics will include:

- Large-scale investment in carbon sequestration and *natural infrastructure*—the infrastructure aspects of natural systems
- Science-based shoreline planning
- Enabling civic agency through place-based environmental education rooted in inquiry
- Innovations in funding, governance, and leadership

Speakers:

Sam Schuchat, California State Coastal Conservancy; Julie Beagle, Resilient Landscapes Program, San Francisco Estuary Institute; Laura Tam, sustainable development policy director, SPUR; Susan Schwartzberg, Exploratorium environmental initiative; Shawn Lani, Studio for Public Spaces, Exploratorium

This is an affiliate event of the Global Climate Action Summit 2018, hosted by the Exploratorium, the California State Coastal Conservancy, San Francisco Estuary Institute, and SPUR. Light refreshments will be served.

Fisher Bay Observatory Gallery, Pier 15, Embarcadero and Green St., San Francisco
