III. FINDINGS

83- 108580

A. Project Description and History

The application is a request to construct a 2-story, 6800 sq. ft. SFD with attached garage swimming pool and tennis court on a 2.7 acre parcel. The subdivision of a 5.3 acre parcel into two

parcels of 2.6 acres and 2.7 (subject parcel) acres was approved under permit application P-2707 and PE-80-2707, with vertical and lateral access conditions which have been recorded.

B. Issues

1. Access

Section 30223 of the Coastal Act states:

Upland areas necessary to support recreational uses shall be reserved for such uses, where feasible.

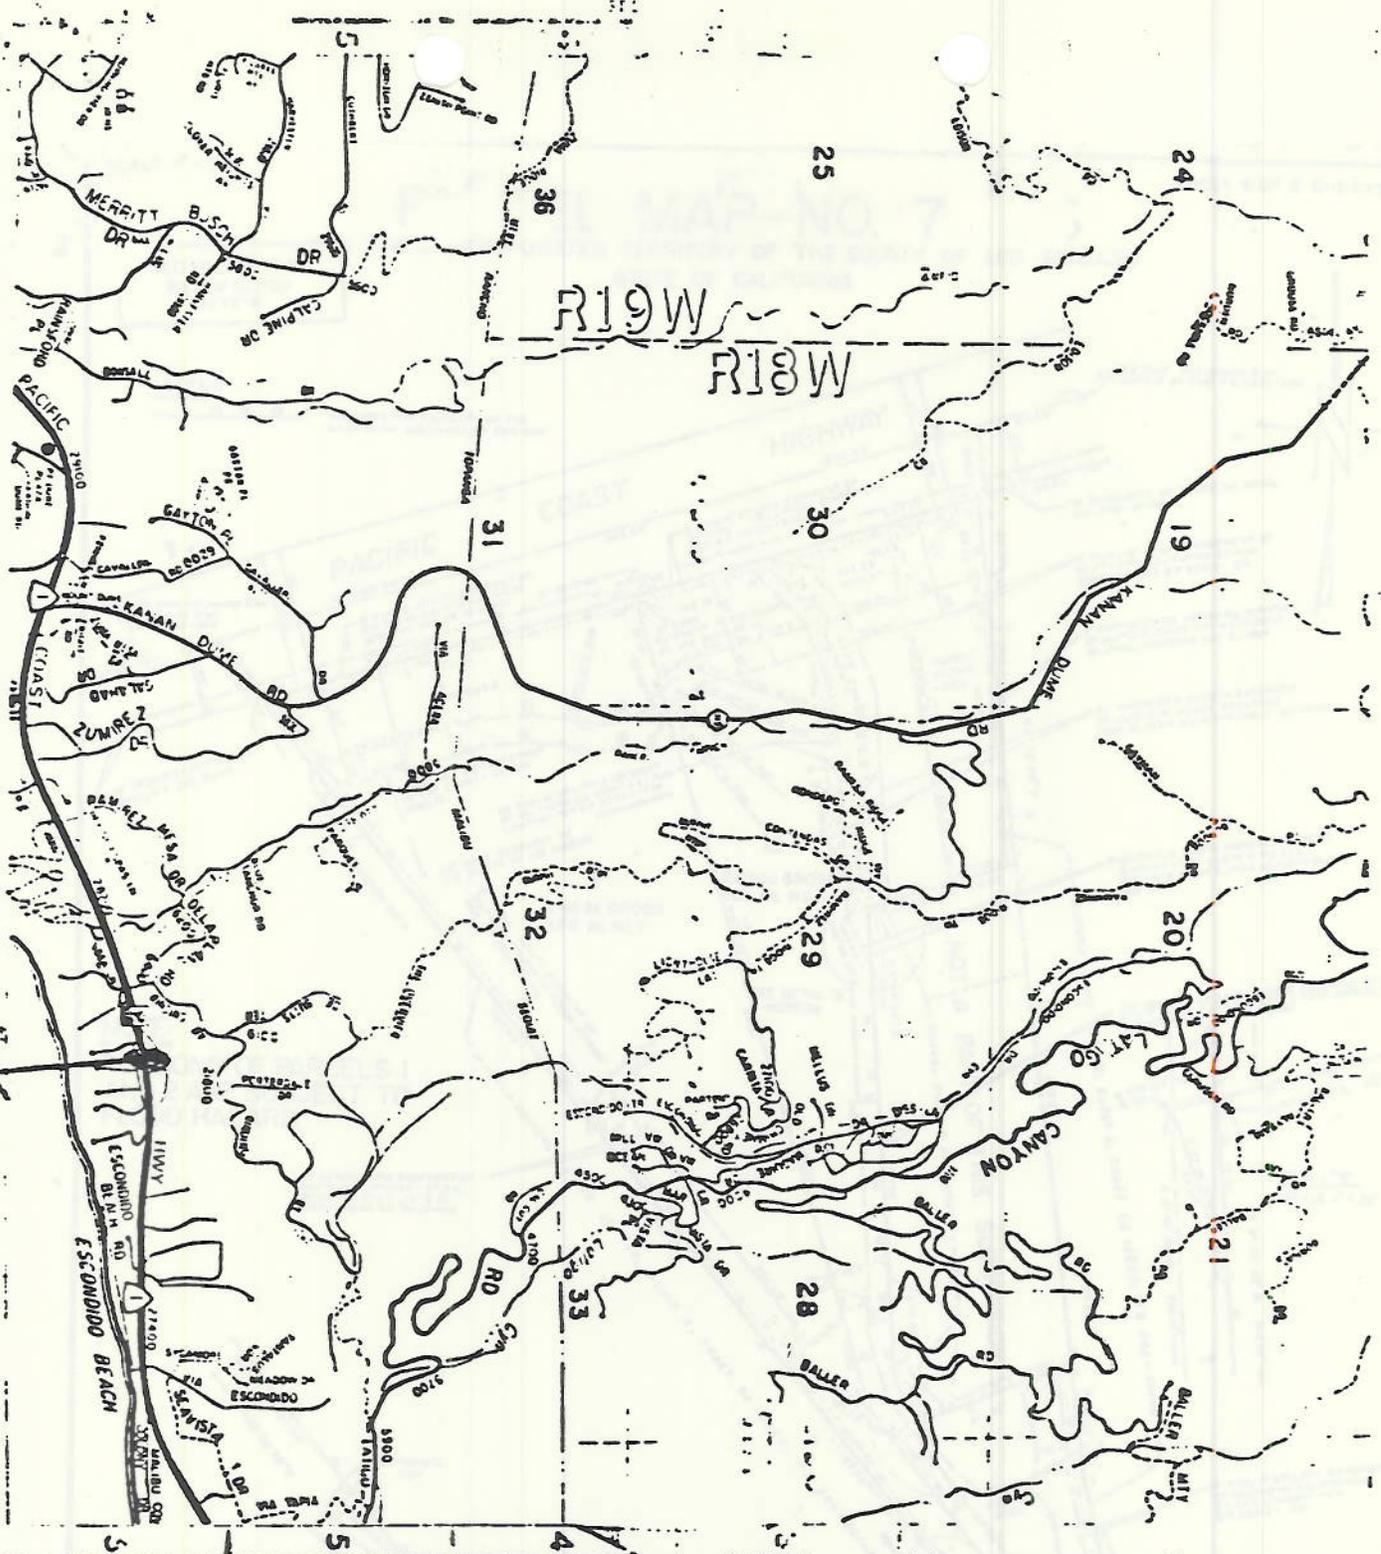

The area in which the applicant's parcel is located immediately abuts Pacific Coast Hwy. Due to the rural nature of this area, the traffic (both and automobile and trucks) moves at a maximum rate of speed. Any public use of the recorded vertical access easement could be precluded by lack of off street parking facilities on the ocean side of Pacific Coast Hwy. Parking on the dirt shoulders on either the north or south side of Pacific Coast Hwy. could result in accidents to vehicles and possible pedestrian fatalities.

At a County requirement of the original subdivision, the applicant was required to dedicate a portion of his property for a "Future Street" to the County of Los Angeles.

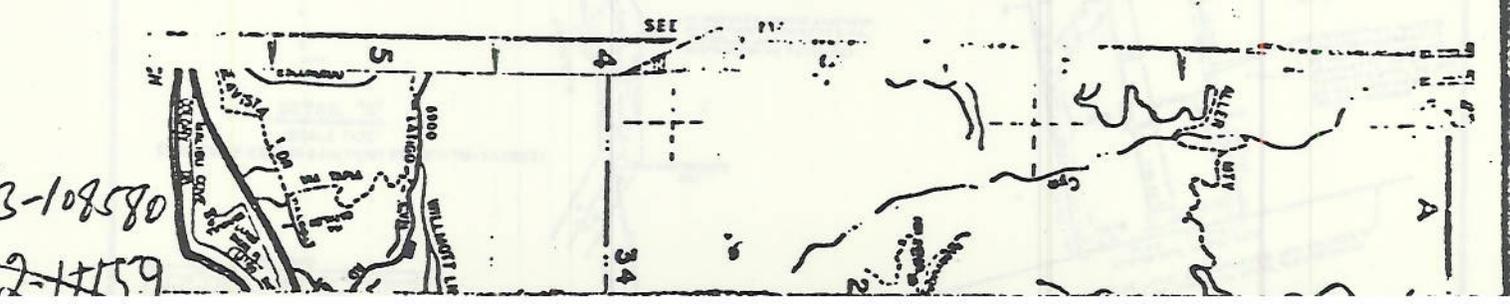

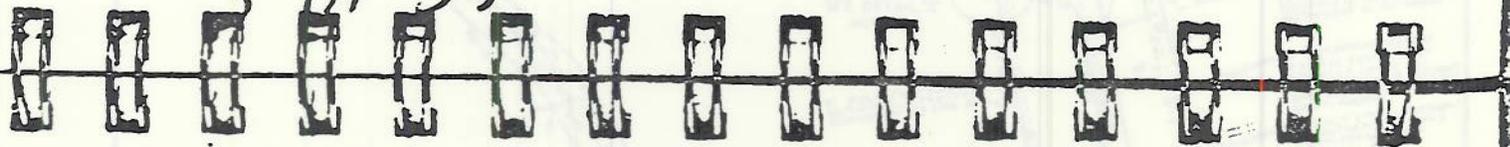

The Commission finds that the project, as conditioned, can be found consistent with Section 30223 of the Coastal Act of 1976.
