

*MALIBU COASTAL ACCESS PUBLIC WORKS PLAN*

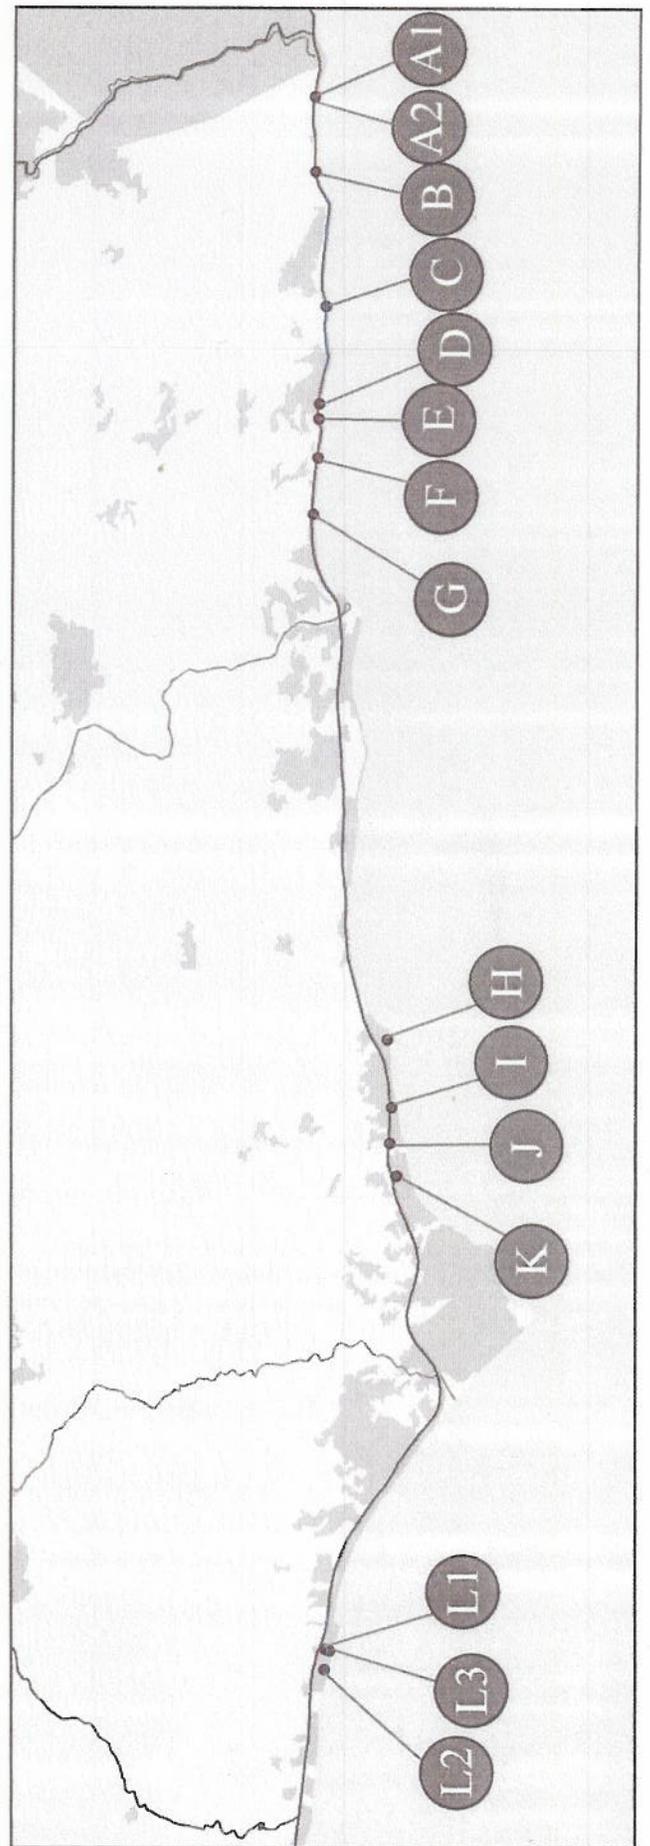

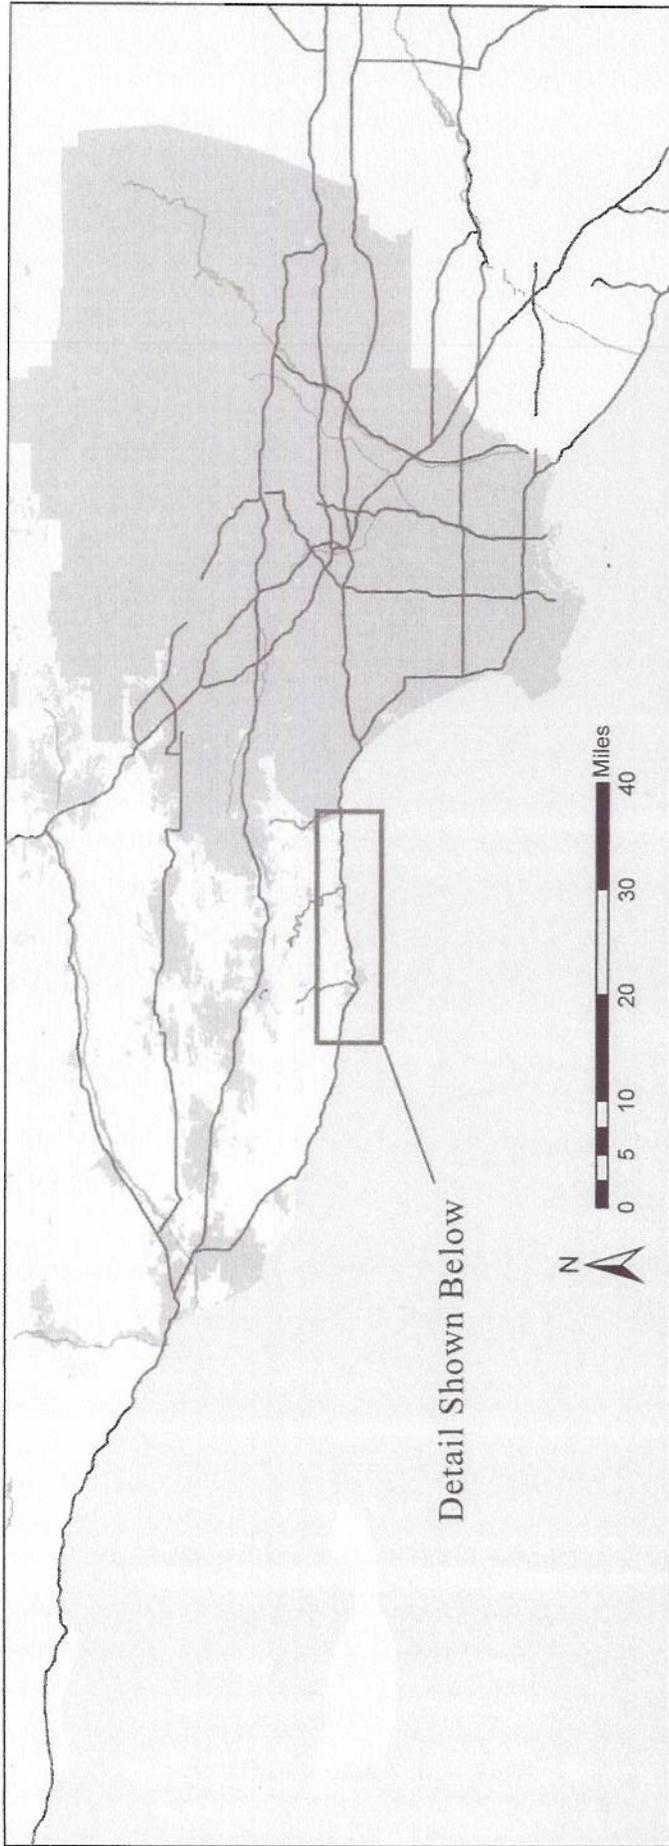

---

consideration and granting of coastal development permits under the California Coastal Act of 1976 and pursuant to 14 California Code of Regulations Section 15251(c). With respect to the fee title properties, these properties were analyzed for their environmental effects as public accessways at the time the properties were funded for public acquisition for public access purposes. On all of the properties included in the proposed Public Works Plan, the statute of limitations under CEQA for challenges to the acceptance, acquisition or use of the easement property or fee title property interests as a public accessway has expired in all cases, and in most cases, the statute of limitations expired decades ago.

Consistent with Section 15262, and as part of the proposed authorization and in connection with preparation of the Public Works Plan, MRCA will undertake and prepare all environmental documentation related to the future implementation actions proposed under the Plan. At the time of the subsequent adoption of the Plan by the Conservancy and MRCA or the permit approval by the Coastal Commission, that environmental documentation will be considered and available for public review and comment as provided under CEQA.

Upon approval, staff will file a Notice of Exemption for this project.
