RE: MEHOA v. MRCA et al.
Los Angeles County Superior Court Case No. BS124911

Dear Ms. Camacho:

This letter confirms that you have graciously stipulated, as to all Respondents and Defendants, a fifteen-day extension beyond the thirty day time period prescribed for the answer or other responsive pleading to the Petition/Complaint served on both the MRCA and Conservancy on February 23, 2010. (Cal. Rules of Court, rule 3.110, subd. (d).)

Further, under Public Resources Code section 21167.6.5, the Conservancy and the MRCA are required "within 10 business days following service of the petition . . . to provide the petitioner . . . with a list of responsible agencies and any public agency having jurisdiction over a natural resource affected by the project." To the best of the Conservancy's knowledge, the only agencies that are in that category are the City of Malibu and possibly the California Coastal Commission. The Conservancy is unaware of any other public agency "having jurisdiction over a natural resource affected by the project."

It was a pleasure to speak with you today and I look forward to cooperating with you further on this matter.

Sincerely,
