ATTN: Moira McEnespy

Dear Chairman Bosco:

I am writing to request your support for additional funding from the California Coastal Conservancy for the Redwood Coast Land Conservancy for its construction of Phase Two of the Gualala Bluff Trail. This project includes the development of 700 feet of trail along the Bluff and adjacent to the Gualala River in downtown Gualala. This trail will allow the public to have access and use of an area with spectacular views of the ocean, the river, and wildlife.

The Redwood Coast Land Conservancy is dedicated to the protection of open spaces and natural resources from the Navarro to the Russian rivers. It successfully completed Phase One of the Gualala Bluff Trail in 1998. This very short phase of the trail has been very popular.

This all-volunteer organization is working on providing public access to four different spots on the Mendocino coast and deserves support. The Trail is an especially important project since it will be so easy to reach both by visitors to Gualala who stop in town and those people who live in the surrounding area when they shop.

Again, I fully support Redwood Coast Land Conservancy's proposal for additional funding for the construction of the Gualala Bluff Trail. If you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink that reads "Wesley Chesbro".

Attn: Moira McEnespy

Dear Mr. Bosco: *Doug*

This letter is to formally request your continued support of the planned development of the Gualala Bluff Trail, Phase Two. After successfully completing Phase One, the Redwood Coast Land Conservancy has begun to further develop the 700 feet of trail on the bluff so that more people may enjoy and have access to this beautiful location.

The Redwood Coast Land Conservancy is dedicated to protecting open space and natural resources. I am confident that the Gualala Bluff Trail is in very capable hands as this group continues to enhance this part of the north coast. The Redwood Coast Land Conservancy will be asking for additional funding from the California Coastal Conservancy in October of 2005. Please convey my wholehearted support of this most worthwhile project to your board.

Our shared commitment to California's coast is illustrated by your previous support for this project and our desire to protect these vulnerable areas while allowing access to all who may enjoy its magnificence. As Californians, we will be well served by Redwood Coast Land Conservancy's continued stewardship and monitoring of the Gualala Bluff Trail.

If I can be of any further assistance, please do not hesitate to call me.

Thank you for your consideration.

Respectfully,

Patty Berg

October 13, 2005

Dear Doug,

I am writing to express my very strong support for the Redwood Coast Land Conservancy's request for funding for some very important work on the Gualala Bluff Trail.

The project involves the development of some 700 feet of trail along the Bluff in an area that is readily accessible to those living in and visitors to the Gualala area. As you know, the Redwood Coast Land Conservancy has invested a considerable amount of volunteer time and effort in earlier phases of the project and there is solid community support for a unique project that offers spectacular views of the views of wildlife, the river, and the ocean. I trust that the Coastal Conservancy will give this request serious attention and will see fit to fund it.

And on a personal note, I thought that you might be interested to know that one of your Congressional pages of some twenty years ago (!!), Grant, is a public health officer for San Francisco and is in charge of several large-scale AIDS clinical trials research projects. When I mentioned that I would be writing to you he said to be sure to send along his very best wishes and fond memories.

Please do not hesitate to contact me if you have any questions about the Gualala Bluff Trail.

Very truly yours,

A handwritten signature in black ink, appearing to read "David", written over the closing "Very truly yours,".

J. David Colfax
