Mr. Douglas Bosco, Chairman,
California Coastal Conservancy
1330 Broadway, 11th Floor
Oakland, California 94612

Re: Santa Monica Bay Restoration Plan:
Las Virgenes Creek Restoration, Phase II

Dear Mr. Bosco:

Pursuant to the terms of Section 31251.2(a) of the California Public Resources Code, the City of Calabasas (as the local agency having jurisdiction over the project area) requests the State Coastal Conservancy to assist the City in undertaking restoration of a segment of Las Virgenes Creek within the City of Calabasas.

The proposed project is described more fully in the Coastal Conservancy staff recommendation to be heard by your board on May 24, 2007.

The proposed project has the full support of the City of Calabasas, and on behalf of the City, I would ask the Coastal Conservancy to undertake this project and urge your support of the proposed \$326,850 grant to the City to help fund it.

Thank you for your consideration.

Yours truly,

Anthony Coroaalles
City Manager
