Mr. Douglas Bosco, Chairman
California State Coastal Conservancy
1330 Broadway, 13th Floor
Oakland, CA 94612

Dear Chairman Bosco:

I am writing to you in support of the grant application submitted by the Golden Gate National Parks Conservancy for the Conservancy's Mori Point Restoration and Trail Plan.

Situated in San Mateo County adjacent to the coastal city of Pacifica, this important project at Mori Point will restore critical wetland and upland habitat for endangered species and enhance recreational access with new public trails.

I strongly hope that the to the California State Coastal Conservancy will support this commendable effort to restore the eroded and disturbed landscape and help create a beautiful coastal park for my constituents and other Mori Point visitors to enjoy.

I thank you for your attention to this matter. If I or my office may be of any additional assistance, please do not hesitate to contact my District Director, David Burruto, at (650) 340-8840.

Sincerely,

A handwritten signature in black ink, appearing to read "L. Yee", with a long, sweeping flourish extending to the right.

Mr. Douglas Bosco, Chairman
California Coastal Conservancy
1330 Broadway, 13th Floor
Oakland, CA 94612

Dear Chairman Bosco:

I am writing to express my most enthusiastic support for the Golden Gate National Parks Conservancy's recommendation to fund the Mori Point Restoration and Trail Plan.

The Project will help revitalize the coast and provide needed habitats for two species of great value, the endangered San Francisco garter snake and the threatened California red-legged frog. This project will not only help preserve these threatened species for future generations, but also provide an environment for native plants to flourish and create an environmentally safe trail system for residents of San Mateo County. Furthermore, with the funding of this plan it would create a community outreach program that would help improve local awareness of environmental issues.

Once again, I fully support the Mori Point Restoration and Trail Plan. Please do not hesitate to contact me with any questions regarding the merit of this project. Thank you for your time and attention to this matter.

Sincerely,

Gene Mullin

December 17, 2007

Mr. Douglas Bosco, Chairman
California State Coastal Conservancy
1330 Broadway, 13th Floor
Oakland, CA 94612

Dear Chairman Bosco,

We are a team of youth volunteers (ages 14-20) participating in the San Francisco Zoo's Junior Zoologist Program. We work year-round as educators and animal keepers in-training at the Koret Animal Resource Center caring for over 100 former pets and damaged wildlife which are used in the Zoo's education and outreach programs.

Recently, we have been involved in an exciting restoration project at Mori Point in Pacifica. Our department at the Zoo houses the only endangered San Francisco garter snakes in captivity which are often brought to Parks Conservancy volunteer events, law enforcement training, and community meetings in Pacifica. We have also begun volunteering monthly with the habitat restoration team at Mori Point. Therefore, we are very pleased to write this letter to the California State Coastal Conservancy in support of the Golden Gate National Parks Conservancy's proposal for the "Mori Point Restoration and Trail Plan."

We are proud to be part of this effort to restore critical habitat for rare and endangered species including the San Francisco garter snake. On behalf of all the youth volunteers at the Zoo, we hope that the Coastal Conservancy will support this important project at Mori Point.

If you have any questions about our group, please contact the Junior Zoologists at the San Francisco Zoo via phone at 415.753.7076 or email at youth@sfzoo.org. Thank you for your attention to this letter.

Sincerely,

Anneliese Miles
