RE: Coastal Land Trust's Application for Funds to Transfer 74 Public Access Easements

Dear Chairman Bosco:

I am writing to you in support of the Coastal Land Trust's application for funds from the State Coastal Conservancy (SCC), to undertake transfer of 74 public access easements in Mendocino County from the American Land Conservancy. I understand these public access easements will be transferred to State Parks and five coastal Mendocino County non-profit organizations. This project is important because it will facilitate the eventual opening and long-term stewardship of these trail easements for public use.

The Coastal Land Trust (CoLT) has an experienced staff, well versed in coastal access issues, with excellent relationships with the local land managers in coastal Mendocino County. CoLT has successfully managed several SCC grants to acquire, steward and open public access easements along the Mendocino Coast.

Thank you for your consideration of this worthy proposal and for your continued support of public access and coastal preservation in California.

Sincerely,

MIKE THOMPSON
Member of Congress

Douglas Bosco, Chairman
State Coastal Conservancy
1330 Broadway, Suite 1100
Oakland, CA 94612

Dear Chairman Bosco:

I am writing to express my strong support for the Coastal Land Trust application for funds from the Sate Coastal Conservancy. This funding will be used to transfer 74 public access easements in Mendocino County from the American Land Conservancy to State Parks and five coastal Mendocino County non-profit organizations.

Transfer to local trail management groups will facilitate the eventual opening and long-term stewardship of these trail easements for public use. As part of this grant, Coastal Land Trust will research and create outreach materials for non-profit organizations to acquire, transfer, record, monitor and develop long-term funding strategies to manage these public access easements/trails.

The Coastal Land Trust has an experienced staff, well versed in coastal access issues, with excellent relationships with the local land managers in coastal Mendocino County. They have successfully managed several State Coastal Conservancy grants to acquire, steward and open public access easements along the Mendocino Coast. The Project Manager for this proposed project is intimately familiar with all of the Mendocino County offers-to-dedicate for public access easements. Their Executive Director is a cartographer who has mapped the California Coastal Trail throughout the state.

Thank you for considering this proposal and for your continued support of public access and coastal preservation. Please do not hesitate to contact me if you have any questions.

Sincerely,

Pat Wiggins
