

Photos of the Proposed Alignment for the Bayside Birding and Walking Trail

North side of bikeway at 7th Street, looking east – proposed location for the 50' x 15' observation area. Note existing level of disturbance.

Just east of 7th Street, north of the bikeway. Proposed trail to be constructed south of current area of disturbance.

Another view near 7th Street, looking west.

A defined walking path and post and cable fencing will eliminate unauthorized access at the edge of the salt ponds (future salt marsh habitat).
