

Exhibit 2: Photographs

This photo shows the .1 mile that will be paved for this proposed project. At the lower right corner of the photo the existing Bay Trail is visible and ends with a gate that is shown more clearly in the photo on the next page. At the upper left corner of the photo, existing Bay Trail extends to the northwest, but was built after 2007 when this aerial photo was taken, so it cannot be seen here. The street with the trucks and cars on it is Alameda Avenue.

Exhibit 2: Photographs

The proposed Fruitvale Avenue to High Street Bay Trail gap closure project is located between the gate pictured here and the Fruitvale Bridge seen on the horizon (framing Mount Tamalpais in Marin County, in the distance).
