Subject: Support for Coastal Conservancy Assistance for the Bay Area
Clean Water Agencies to Administer Grants that Implement the Bay Area
Integrated Regional Water Management Implementation Plan

Dear Mr. Bosco:

The San Francisco Public Utilities Commission supports the proposed action to approve State Coastal Conservancy (SCC) funding for the Bay Area Clean Water Agencies (BACWA) to help administer Proposition 84 Integrated Regional Water Management grant funding for 18 water resource management projects, including wetland restoration in the North Bay and South Bay, water conservation, water recycling, green infrastructure and watershed work. These grant funded projects may not be able to proceed without an upfront investment by the IRWM partnership to fund administration.

The administration of this work will be complex and challenging to assure all the projects proceed adequately and provide the benefits to the State as proposed in January, 2011. The SCC funding, up to \$50,000, will greatly aid our collective effort. All project proponents involved with the grant are cost sharing for administration, which includes accounting, reporting, invoicing, legal support, coordination and disbursing funds after grant checks are received from the State.

The SCC contribution is greatly appreciated and we look forward to working with you to successfully implement the Bay Area IRWMP. If you have any questions about this please call me at (415) 934-5736.

Sincerely,

Dear Mr. Bosco:

Support Letter – Coastal Conservancy Assistance for the
Bay Area Clean Water Agencies to Administer Grants that Implement the
Bay Area Integrated Regional Water Management Implementation Plan (IRWMP)

The East Bay Municipal Utility District (EBMUD) supports the proposed action to approve State Coastal Conservancy (SCC) funding for BACWA to help administer Proposition 84 Integrated Regional Water Management grant funding for 18 water resource management projects, including wetland restoration in the North Bay and South Bay, water conservation, water recycling, green infrastructure and watershed work. These grant funded projects may not be able to proceed without an upfront investment by the IRWM partnership to fund administration.

The administration of this work will be complex and challenging to assure all the projects proceed adequately and provide the benefits to the State as proposed in January, 2011. The SCC funding, up to \$50,000, will greatly aid our collective effort. All project proponents involved with the grant are cost sharing for administration, which includes accounting, reporting, invoicing, legal support, coordination and disbursing funds after grant checks are received from the State.

The SCC contribution is greatly appreciated and we look forward to working with you to successfully implement the Bay Area IRWMP. If you have any questions or concern about this please do not hesitate to call Brian Campbell at (510) 287-0680.

Dear Mr. Bosco:

The Sonoma County Water Agency (Water Agency) supports the proposed action to approve State Coastal Conservancy (SCC) funding to help administer Proposition 84 Integrated Regional Water Management grant funding for 18 water resource management projects, including wetland restoration in the North Bay and South Bay, water conservation, water recycling, green infrastructure and watershed work. These grant funded projects may not be able to proceed without an upfront investment by the IRWM partnership to fund administration.

Re: Support Letter – Coastal Conservancy Assistance for the Bay Area Clean Water Agencies to Administer Grants that Implement the San Francisco Bay Area Integrated Regional Water Management Plan (IRWMP)

Dear Mr. Bosco:

As Chair of the San Francisco Bay Area IRWMP Coordinating Committee and General Manager of Marin Municipal Water District (MMWD), I am writing to express our support for the proposed action to approve State Coastal Conservancy (SCC) funding for Bay Area Clean Water Agencies (BACWA) to help administer Proposition 84 Integrated Regional Water Management grant funding for 18 water resource management projects, including wetland restoration in the North Bay and South Bay, water conservation, water recycling, green infrastructure and watershed work. These grant funded projects may not be able to proceed without an upfront investment by the IRWM partnership to fund administration.

The administration of this work will be complex and challenging to assure that all the projects are managed well, so that they will provide the benefits to the State as proposed in January, 2011. The SCC funding, up to \$50,000, will greatly aid our collective effort. All project proponents involved with the grant are sharing costs for administration, which includes accounting, reporting, invoicing, legal support, coordination and disbursing funds after grant checks are received from the State.

The SCC contribution is greatly appreciated and we look forward to working with you to successfully implement the Bay Area IRWMP. If you have any questions or concern about this please do not hesitate to call me at (415) 945-1460.

Sincerely,

A handwritten signature in blue ink that reads "Paul Helliker".

Dear Mr. Bosco:

SUBJECT: State Coastal Conservancy support for the Bay Area Clean Water Agencies (BACWA) administration and implementation of the Bay Area Integrated Regional Water Management Implementation Plan (IRWMP)

South Bay Water Recycling, a member of BACWA, supports the proposed action to approve State Coastal Conservancy funding to help administer the Proposition 84 Integrated Regional Water Management grant funding for 18 water resource management projects in our region, including water recycling, wetland restoration, green infrastructure, water conservation and watershed protection work. With IRWMP projects funded by the State Proposition 84 grant and supported by the SCC, we help bring the State of California closer to sustainable water supplies for our region.

The administration of the work under this grant will be challenging for the many agencies participating and support by the SCC will help assure that all projects meet individual and collective goals with sufficient administration. All project participants involved with the Proposition 84 grant are sharing the collective cost of administration, which includes tasks such as accounting, performance reporting, invoicing, legal support, coordination and the disbursement of funds after grant funds are received by the California Department of Water Resources.

The SCC proportional contribution to the grant administration is greatly appreciated by all members of BACWA, including South Bay Water Recycling, and we look forward to working with you on the implementation of the Bay Area Integrated Regional Water Management Implementation Plan (IRWMP).

If you have any questions regarding this subject, please do not hesitate to contact me at (408) 363-4714.

Best Regards,
