Re: Coastal Conservancy funding for property acquisition at Las Tunas Beach

Dear Chair Bosco;

I fully support the grant request for the Mountains Recreation and Conservation Authority (MRCA) to purchase 5 contiguous beach lots at Las Tunas Beach in Malibu. As the State Senator representing Malibu and as an advocate for conservation and public access, I understand the value of this worthy project.

As I know you are fully aware, beach access in Malibu is a precious commodity, and the opportunity to acquire nearly 300 feet of coastline from a willing seller is rare. With the Coastal Conservancy and MRCA working together, I feel confident the process of public involvement will be open and inclusive and the ultimate site design will reflect both visitors' needs and the capacity of the site. But first the site must be acquired and I hope you will move forward to secure it for public use.

Sincerely,

Senator Fran Pavley, SD23

COASTAL CONSERVANCY
OAKLAND, CALIF.

ZUMA JAY SURFBOARDS

March 1, 2012

Dear Coastal Conservancy Members:

I have been advised that the Conservancy has an opportunity to acquire five beach lots on Las Tunas Beach in Malibu and that the combined beach frontage is 290± lineal feet. It is very rare that five separate and contiguous lots can be made available for public ownership, and I support the public acquisition of the lots so the beach and magnificent ocean views along P.C.H. can be protected and preserved for public enjoyment. I have owned Zuma Jay's surf shop in Malibu for more than 38 years and have enjoyed public beaches as a surfer all my life. I believe that the public ownership of the beach would be consistent with the City's Local Coastal Program. Although I do not speak for the City of Malibu, I am Councilman for the City of Malibu.

Yours truly,

A handwritten signature in cursive script that reads "Jefferson Wagner".
