

Exhibit 3: Site Photographs

Volunteers build water bars to stem erosion on trails at Pedro Point Headlands.

Exhibit 3: Site Photographs

Volunteers help eradicate non-natives at the Land Trust's annual winter holiday event.

Exhibit 3: Site Photographs

Volunteers plant native plants to stem erosion on a hillside at the Pedro Point Headlands. Erosion from old motorcycle trails is clear on the hillside (below).

Exhibit 3: Site Photographs

Looking south to Devil's Slide (above) and northwest to Pedro Point rock (below).
