

Exhibit 2: Photos and Graphics

**Figure 1.** Natural resources surrounding the proposed new education center. The education center will be a portal to a broader open space surrounding the reserve and to the Gaviota Coast to the west.

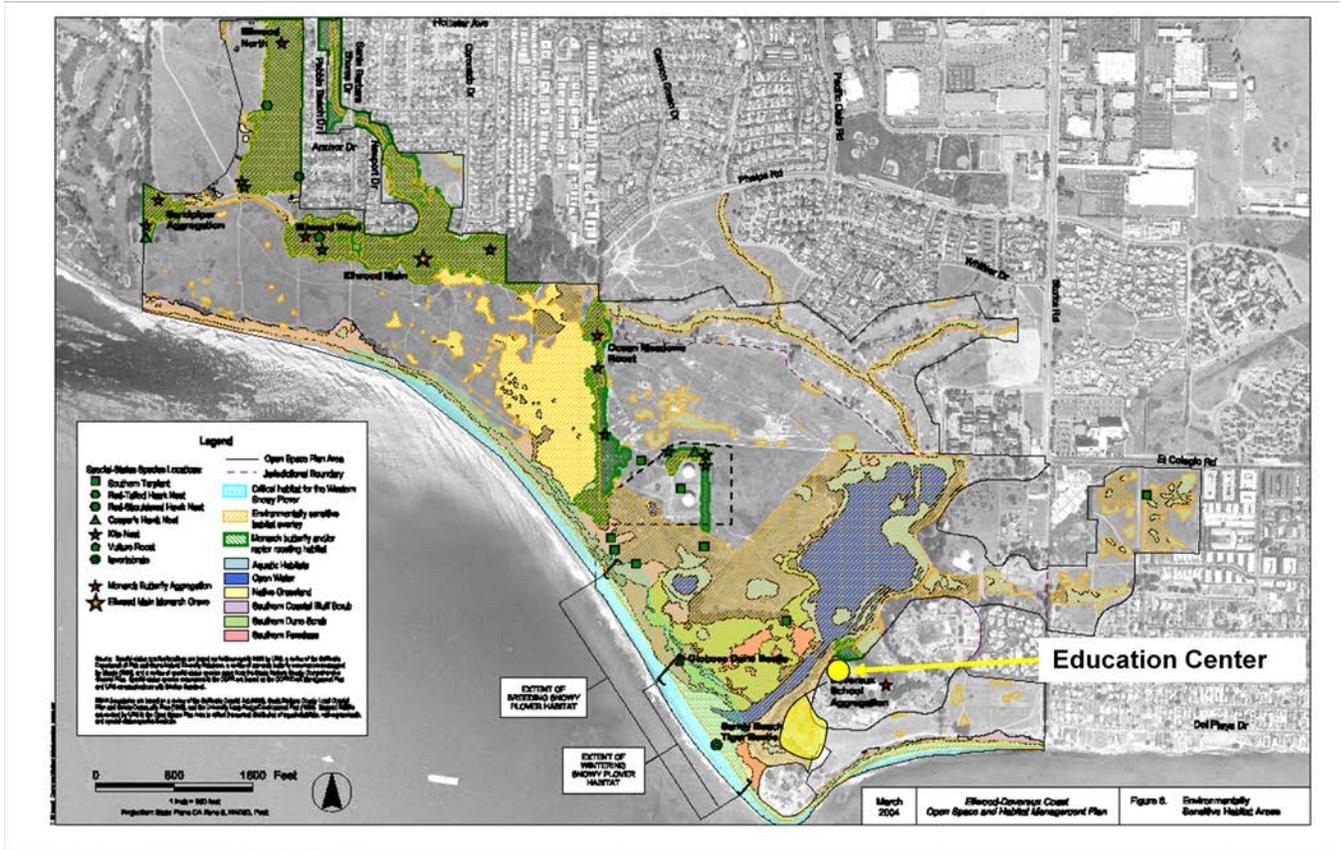

Exhibit 2: Photos and Graphics

**Figure 2.** Aerial view showing education center building and parking lots.

## Exhibit 2: Photos and Graphics

**Figure 3.** Photos of the proposed COPR education center.

*Front view.* Current main entrance to the building faces away from the Reserve boundary (see above) and towards the complex of buildings on the property.

*Back View.* The current back entrance faces towards the Reserve boundary (see above). There is a courtyard space that will become an outdoor meeting area. The entrances on this side of the building will be modified and become the main entrance to the education center.

Exhibit 2: Photos and Graphics

**Figure 5.** Artistic rendering of completed education center. Drawing by Lauren Dykman, UCSB student.
