Subject: Support for Bay Area Ridge Trail – Green Valley Road Crossing – Design

Dear Chairman Bosco:

I am pleased to provide my strong support for a Coastal Conservancy grant to the City of Fairfield to design pedestrian/bicycle crossings across Green Valley Road and Westlake Drive, just south of Rockville Hills Regional Park. The Green Valley Road crossing is a critical gap in the regional Bay Area Ridge Trail, and the Westlake Drive crossing supports local access to the trail.

This section of Ridge Trail is part of a regional linear park trail anchored to the north by Rockville Hills Regional Park and to the south by Nelda Mundy Elementary School. Filling this trail gap will provide a link to existing community trails in the North Cordelia area that extend along Green Valley Road and Mason Boulevard, ultimately connecting to Solano Community College.

The Bay Area Ridge Trail, and this section in particular, is important to the constituents of my Supervisory District and all residents of Solano County because it will provide a safe route for bicyclists and pedestrians, and increase linkages to other area trails.

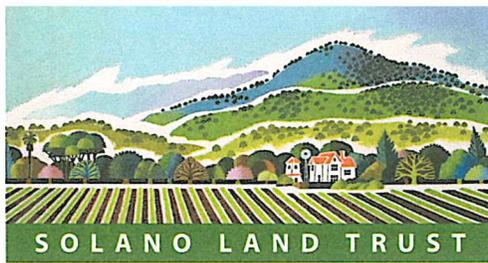

Your support of the Ridge Trail is very much appreciated.

Sincerely,

Linda J. Seifert,
Solano County Board of Supervisor

cc: Janet McBride, Bay Area Ridge Trail Council

Subject: Support for Bay Area Ridge Trail – Green Valley Road Crossing – Design

Dear Chairman Bosco:

I am writing to convey my strong support for a Coastal Conservancy grant to the City of Fairfield to design pedestrian/bicycle crossings across Green Valley Road and Westlake Drive, just south of Rockville Hills Regional Park. The Green Valley Road crossing is a critical gap in the regional Bay Area Ridge Trail, and the Westlake Drive crossing supports local access to the trail.

This section of Ridge Trail is part of a regional linear park trail anchored to the north by Rockville Hills Regional Park and to the south by Nelda Mundy Elementary School. Filling this trail gap will provide a link to existing community trails in the North Cordelia area that extend along Green Valley Road and Mason Boulevard, ultimately connecting to Solano Community College.

The Bay Area Ridge Trail, and this section in particular, is important to the Solano Land Trust. A section of the Ridge Trail currently exists in our Lynch Canyon property and a future section of the Ridge Trail will be constructed in our Rockville Trails property. Completion of this specific gap will assist in the completion of the Ridge Trail through Rockville Hills Regional Park and connection to the future segment in our Rockville Trails property.

Thank you so much for all your support of the Ridge Trail!

Sincerely,

Nicole Byrd
Executive Director

cc: Janet McBride, Bay Area Ridge Trail Council
